ARVIGO Control Panels

WM Touch

The ARVIGOmoto and ARVIGOnano control panels are super easy to operate and are compatible with an array of DSP manufacturers. Both control panels feature eight 60mm motorised faders for simple volume control, that can be set to your preferences within the Pragma software. 4 or 5 (5 on the moto and 4 on the nano) bi-directional functionality buttons are present on the controllers for switching between sets of controls.

ARVIGOmoto – IBEX, Biamp, Bose, BSS, Pharos, QSC, Shure and Symetrix.

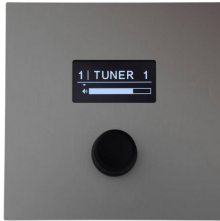

ARVIGOnano – Biamp, Bose, BSS, QSC, Symetrix and Xilica.
