

INTEGRATOR PRICE LIST – OCTOBER 2022

PoE Dante Amplifiers

PoE Dante Amplifiers

These compact Dante amplifiers are designed to be single cable solutions for small/medium zones without the need for a local power outlet.

This amplifier series leverages the ubiquitous nature of existing CAT5e/6 cable in zones and also the inexpensive process of pulling new cable to zones. It creates an opportunity to reduce labour costs with a single, reliable, twisted pair cable that carries power and data to where you need it.

Simply plug the PoE(+) CAT5e/6 cable into the amplifier, wire the speakers and route audio and repeat for the next zone.

AV8-2-LZ | 8W x 2 @ 4 Ohm PoE+ Dante amplifier.
£619.00

AV20-2-LZ-D | 20W x 2 @ 4 Ohm PoE++ Dante amplifier.
£719.00

CVA16-1-CV | 16W x 1 @ 70 / 100V PoE+ Dante amplifier.
£649.00

CVA40-1-CV | 40W x 1 @ 70 / 100V PoE++ Dante amplifier.
£749.00

Sub Compact Amplifiers

AV Series

AV25-2
£309.00

2-channel 25W x 2 @ 8 Ohm stereo amplifier in a subcompact, 1/4 rack form factor. This amplifier is plenum rated for above-ceiling applications and uses Stewart Audio's Signal Sense Technology for Energy Star compliance.

AV25-2 NET-D
£719.00

2-channel 25W x 2 @ 8 Ohm networked amplifier in a subcompact, 1/3 rack form factor. Includes two channels of Dante network amplification. Designed with a network only signal input and includes a priority switch for selective ducking of either signal to allow one amplifier to do the work of two.

AV25-2-RS232
£359.00

2 x 25w @ 8 Ohm/ 2 x 35w @ 4 Ohm with RS232.

AV30MX-2
£319.00

2-channel 30W x 2 @ 8 Ohm stereo mixer amplifier in a subcompact, 1/4 rack form factor. This amplifier is plenum rated for above-ceiling applications and uses Stewart Audio's Signal Sense Technology for Energy Star compliance.

INTEGRATOR PRICE LIST – OCTOBER 2022

CVA Series

CVA25-1
£359.00

25W x 1 @ 70V / 100V mono sub compact amplifier that allows amplification to be located in places normally off limits to standard amplifiers without compromising on sound or power. Low cost, lightweight and convection cooling makes this Class-D amplifier flexible enough for a broad range of applications.

CVA50-1
£419.00

50W version of the CVA25-1.

CVA50MX-1-100
£569.00

4-channel 50W x 1 mixer amplifier. With its variety of inputs and the ability to output into either a 4/8 Ohm setup or a constant voltage distributed speaker setup, the CVA50MX-1 is an all-in-one solution for any application.

CVA50PMX-1-100
£569.00

Paging version of the CVA50MX-1-100

CVA50-1 NET-D
£749.00

50W x 1 @ 70V / 100V mono Dante subcompact amplifier in a 1/3 rack form factor. Designed with a network only signal input and features a priority switch for selective ducking of either signal.

FLX Amplifiers

FLX Series

The FLX-E series of amplifiers are the most versatile 1/2 rack amplifier Stewart Audio has ever produced. Available with between 1 and 4-channels and provides between 80 and 320W.

At the heart of the amplifier is a robust, internal, full-function DSP designed to solve a multitude of your audio problems in just one enclosure. The DSP includes a full cross-point mixer, pre-mix level control, EQ, filters, limiters and much more.

An ethernet port makes programming simple, fast and repeatable for larger installations. Dante models are available and provides four network input audio channels and four network output audio channels.

FLX-E-80-4-LZ
£1,769.00

4 x 80W @ 4 Ohms, 2 x 40W @ 8 Ohms, DSP configurable.

FLX-E-80-4-LZ-D
£2,109.00

4 x 80W @ 4 Ohms, 2 x 40W @ 8 Ohms, DSP configurable, Dante-enabled.

FLX-E-160-2-LZ
£1,769.00

2 x 160W @ 4 Ohms, DSP configurable.

FLX-E-160-2-LZ-D
£2,109.00

2 x 160W @ 4 Ohms, DSP configurable, Dante-enabled.

INTEGRATOR PRICE LIST – OCTOBER 2022

FLX-E-80-4-CV £1,769.00	4 x 80W @ 70 / 100V, DSP configurable.
FLX-E-160-2-CV 1,769.00	2 x 160W @ 70 / 100V, DSP configurable.
FLX-E-320-1-CV £1,769.00	1 x 320W @ 70 / 100V, DSP configurable.
FLX-E-80-4-CV-D £2,109.00	4 x 80W @ 70 / 100V, DSP configurable, Dante-enabled.
FLX-E-160-2-CV-D £2,109.00	2 x 160W @ 70 / 100V, DSP configurable, Dante-enabled.
FLX-E-320-1-CV-D £2,109.00	1 x 320W @ 70 / 100V, DSP configurable, Dante-enabled.

DSP Amplifiers

DSP Amplifiers

The DSP100's are affordable amplifiers with a fully integrated DSP, designed to optimised the speakers and acoustical limitations of a zone. Both the DSP100-1 and 2 provide 1W audio power at 70 / 100V and are available with either 1 or 2-channels.

The robust, full-function DSP includes full cross-point mixer, EQ, filters, limiters, and more. A USB port makes programming simple, fast and repeatable for large installations.

Both amplifiers have a Dante version available for networked audio.

DSP100-1-CV £769.00	1 x 100W @ 70 / 100V, integral DSP.
DSP100-2-CV £999.00	2 x 100W @ 70 / 100V, integral DSP.
DSP100-1-CV-D £1,249.00	1 x 100W @ 70 / 100V, integral DSP, Dante-enabled.
DSP100-2-CV-D £1,429.00	2 x 100W @ 70 / 100V, integral DSP, Dante-enabled.
DSP100-2-LZ £969.00	1 x 100W @ 70 / 100V, integral DSP, Dante-enabled.
DSP100-2-LZ-D £1,399.00	2 x 100W @ 70 / 100V, integral DSP, Dante-enabled.

INTEGRATOR PRICE LIST – OCTOBER 2022

8 Channel Dante Amplifiers

MC850 Amplifiers

The MC850 family embodies the future of smart amplification with networked audio inputs, ethernet configuration, control and reporting and flexible power allocation between channels.

Whether it's low impedance, 70 / 100V or a mix of the two, there is a model for you with 8 channels and a total of 400W. Setup and configuration can be done anywhere with network access allowing the installer to locate in the zone for real time feedback.

The software is simple, intuitive and targeted in scope to make setup easy and allow for granular control.

MC850-LZ-D | 8 x 50W @ 8 Ohms with Dante, and ethernet control and reporting.
£2,699.00

MC850-CV-D | 8 x 50W @ 70 / 100V with Dante, and ethernet control and reporting.
£2,949.00

MC850-MXZ-D | 2 x 50W @ 8 Ohms, 6 x 50W @ 70 / 100V, with Dante, and ethernet control and reporting.
£2,949.00

DSP

DSP 4X4

DSP 4X4
£849.00

The DSP 4x4 is a versatile full-featured DSP ideal for small to medium installations where 4 channels are the right amount. With a full array of DSP blocks designed to accept line or mic level. The DSP 4x4 is designed to optimise the sound quality in multiple zones. Set and forget configuration is done through the front USB port via an intuitive windows program.

Dante Breakout

NET AV I/O 2X2

NET AV I/O 2X2
£729.00

NetAV I/O 2x2 is a network enabled bridge product with 2 channels of analog to digital on to the network and 2 channels of digital to analog off the network. With 2 balanced analog input that are automatically encoded, any analog audio signal can be made available on the network, and vice versa, any Dante signal on the network can be converted to an analog output.

INTEGRATOR PRICE LIST - OCTOBER 2022

Remote Control

Remote Control

WP-RVC-A
£70.00 | Wall plate with an aluminium finish for use with any amplifiers with remote volume control capability.

WP-RVC-B
£70.00 | Wall plate with a black finish for use with any amplifiers with remote volume control capability.

Mounting Accessories

Mounting

AV-POLE
£25.00 | Pole mount for AV Series amplifiers and mixers.

AV-BRACKET
£14.00 | Universal mounting bracket AV Series amplifiers and mixers.

RMK-HLF-S
£53.00 | Single rack-mount kit for FLS and DSP amplifiers.

RMK-HLF-D
£76.00 | Double rack-mount kit for FLS and DSP amplifiers.

RMK-CMP-S
£39.00 | Single rack mount kit for DSP 4x4.

RMK-CMP-D
£54.00 | Double rack mount kit for DSP 4x4.
