### Point Sources

#### C Series

The CX and CA Series are high-performance solutions for install applications.

Building on the success of the popular CFX Series, Renkus-Heinz has introduced an improved installation series, the CX.

Externally powered, CX models include a high-quality passive crossover network which can be easily bypassed with an internal jumper for bi-amplifier operation.

The CA Series comes equipped with the SA power amplifiers, featuring optional RHAON network control, Dante, and fiber optic inputs. With these features, all CA models are compatible with all other self-powered Renkus-Heinz loudspeakers.

<b>CX41</b> £289.00	CX41 - 2-Way 4" Coaxial Loudspeaker.
<b>CX61</b> £549.00	CX61 - 2-Way, Full-Range Loudspeaker 6.5" LF, 1" HF.
<b>CX62</b> £709.00	CX62 - 2-Way, Full-Range Loudspeaker 2 x 6.5" LF, 1 HF.
<b>CX81</b> £679.00	CX81 - 2-Way, Full-Range Loudspeaker 8" LF, 1 HF.
<b>CX82</b> £809.00	CX82 - 2-Way, Full-Range Loudspeaker 2 x 8" LF, 1 HF.
<b>CX121</b> £1,099.00	CX121 - 2-Way, Full-Range Loudspeaker 12" LF, 1 HF.
<b>CX121M</b> £1,099.00	CX121M - 2-Way, Full-Range Loudspeaker 12" LF, 1 HF.
<b>CX151</b> £1,249.00	CX151 - 2-Way, Full-Range Loudspeaker 15" LF, 1 HF.
<b>CX112S</b> £949.00	CX112S - 12" Subwoofer.
<b>CX118S</b> £1,199.00	CX118S - 18" Subwoofer.

## Beam Steering Loudspeakers

### Directivity Control

Renkus-Heinz has taken the expertise learned over more than a decade of creating digitally steered line array technology, and scaled it to meet the needs of smaller, more intimate environments.

The DC12/2 is the first product in the Directivity Control Series. The ultra-compact, steerable array brings the clarity, intelligibility, and control of the ICONYX, to smaller but equally challenging spaces.

DC12/2 is a self-powered column line array with 12 full-range, two-inch drivers powered by twelve channels of SA Series amplification.

It is also the first digitally steerable array with control via a smartphone or tablet. Connect to an array via Wi-Fi and select between different directivity options to deliver consistent coverage.

<b>DC12/2-BK</b> £3,549.99	DC12/2-BK - Digital Directivity Control Column - Black.
<b>DC12/2-WT</b> £3,549.00	DC12/2-WT - Digital Directivity Control Column - White.
<b>DC12/2-CC</b> £3,799.00	DC12/2-CC - Digital Directivity Control Column - Custom Colour (Add PNTSETUP).

## Passive Columns

### UBX Series

The UBX series from Renkus-Heinz delivers the precise coverage, high intelligibility, and renowned sound quality of their flagship Iconyx loudspeakers into the realm of passive column arrays.

The UBX Series utilizes state of the art neodymium 3" Full-Range drivers which allow for an incredibly small footprint. The narrow cabinet, combined with the Passive UniBeam coverage allow for flush-mounting via the included wall mount bracket result in the lowest possible architectural intrusion. All models in the UBX Series are weather resistant (IP64) out of the box with the included gland/conduit knock out input cover, and feature high quality audio transformers for 70V/100V constant voltage operation in large, distributed audio systems.

### ICONYX Compact

ICONYX Compact puts the flexibility and directivity of ICONYX into a size that can disappear into any space.

The combination of 3-inch full-range drivers and a state-of-the-art 12 channel amplifier, along with its world leading experience in beam steerable arrays, leads to a performance never before seen in such a small array.

Full RHAON II beam-steering and modular flexibility make ICONYX Compact the ideal choice for tough acoustic environments where ICONYX Gen5 is too big. All without sacrificing the stellar audio quality that Renkus-Heinz ICONYX is known for.

### ICONYX Gen5

Renkus-Heinz introduced the first ICONYX array nearly a decade ago, and have since refined and perfected the product to give you the ICONYX Gen5.

ICONYX Gen5 represents the latest in beam steering technology, integrating the power of advanced beam steering algorithms with the intuitive control of its new RHAON II system designer software.

The loudspeaker delivers more than 200% increase in speed of operations due to direct TCP/IP control, and new UniBeam technology provides an additional 3-6dB of output potential.

The -RD versions of ICONYX include Dual Redundant Dante connectivity, with audio transport and control over the same Dante network interface.

## INTEGRATOR PRICE LIST - MARCH 2023

### ICONYX Live Gen5

IC Live takes the control and flexibility of the ICONYX and scales it up to a higher output product.

This higher output means it's ideally suited for live music and theatrical environments, as well as worship spaces with more contemporary programming.

The introduction of Generation 5 technology brings improved performance and speed of operation, while also increasing potential output and reducing cost.

The IC Live Gen5 -RD arrays include Dual Redundant Dante connectivity and control, allowing users to communicate with the devices over the network.

## Subwoofers

### SX / SA Series

Bass response is vitally important to all genres of music and Renkus-Heinz delivers superb results with the S Series of subwoofers.

Designed for complementing any series of Renkus-Heinz loudspeaker, the S Series delivers deep, tight bass from surprisingly compact cabinets.

Custom designed high-excursion woofers and perfectly mated to both the cabinet and the (optional) built-in power amplifier.

Whatever the application, there's an S Series subwoofer to meet it!
